

Frequently Asked Questions...

Answers to our most frequently asked questions about our services and home organization in general...

What is a professional organizer?

A professional organizer is someone that helps to overcome clutter and disorganization in order to make life less stressful. Professional organizers find efficiencies in both home and commercial spaces; creating customized systems uniquely tailored to its user(s) to maximize productivity and time-management.

Why hire a professional organizer?

A professional organizer not only helps to organize clutter, but he or she creates easy-to-follow systems to ensure long-lasting results. Professional organizers can either work directly with a client or can handle an assigned area themselves. Organizers purge, sort, clean, file, de-clutter, and de-stress with the goal of making a space enjoyable and user-friendly.

What are the benefits of getting organized?

There are countless benefits to getting organized! You will find yourself having more time, less stress, and you will finally know where everything is located. Becoming organized allows you the freedom to pursue your passions and hobbies by freeing up time that would have been lost in chaos. I guarantee that by employing both time-management and organizational systems, you will be a happier and more productive person. Your environment is directly correlated with your attitude, outlook, and health. Simplifying your life through organization gives you an opportunity to focus on what is truly meaningful in your life.

Which areas do you service?

I am up for any challenge! I can assist you with both small and large projects. This may be scheduled all at once or through a maintenance program over an extended period of time. You can see a full listing of areas and rooms serviced on the Services [[link to services page](#)] page.

Will you work with me or just coach me?

It's entirely up to you. If you don't want to lift a finger, you don't have to. For certain projects, clients are encouraged to work alongside of me. For any reason a client is unable to be at the home or business at the time of service, small yet manageable homework assignments will be given at the client's chosen pace (i.e. dealing with sensitive financial documents or family photographs). I am flexible and intend to work with you in a way that best suits you!
